ABOUT ME

I am a fourth-year student who enjoys problem-solving and is particularly passionate about the design process - going from idea/problem, through stakeholders, to a solution in the form of a visual appearance or identity. Despite loving design in all its forms, my studies involve many courses that develop skills in various programming languages and frameworks, which I find interesting and also want to learn more about.

Outside of school, I spend my time on working out, baking, or interior design.

WORKING EXPERIENCES

- **Processoperatör Norrmejerier**
  2021 - present
- **Kundsupport Webhelp**
  2019 - 2020
- **Truckchaufför Bilbolaget**
  2019

EDUCATION

M.Sc.Eng in Interaction Technology and Design

Umeå University   Aug 2020 - present
